Ms. Paula McCartney
Quality Assurance Director
Agriculture & Priority Pollutants Laboratories
908 N. Temperance Avenue
Clovis, California 93611

Dear Ms. McCartney:

After a review of the required documents, we are pleased to recommend that the data for drinking water analyses be "accepted" for regulatory purposes by the Hawaii Department of Health, Safe Drinking Water Branch until **September 30, 2022** for the parameters listed on the following pages.

All testing for regulatory drinking water purposes must be done with approved methods that are specified in this certification, and PT studies must be passed using these methodologies. The laboratory annually must successfully complete a PT study for each analyte to be certified. Failure to do so, would result in the loss of approval status with this state. In addition, the laboratory should perform its first PT study within the first half of the year.

It is the laboratory's responsibility to keep the Department of Health Certification Program informed by continuing to submit results of applicable PT studies, copies of in-state on-site evaluation reports, and immediate notification of any significant changes. The certification of your laboratory in Hawaii is based on your in-state and or on your NELAP certification. Any loss of certification for a specific parameter will result in loss of Hawaii certification for that parameter. **As a result, any changes to your in-state and or your NELAP certification status must be submitted immediately.**

All samples that are contracted out by your laboratory for Hawaii regulatory drinking water monitoring purposes must be analyzed by laboratories that have been approved by the Hawaii

Ms. Paula McCartney

Safe Drinking Water Program. A list of Hawaii approved certified laboratories is available from Robert Pineda (808-453-6679) or from the Hawaii Safe Drinking Water Program (808-586-4258).

To avoid interruption of your approval, you must submit a written request for renewal at least two months prior to the expiration date indicated above.

If you have any questions, please call Robert Pineda, Laboratory Certification Officer, at (808) 453-6679. Thank you for your time and efforts.

Sincerely,

Edward P. Desmond, Ph.D., D(ABMM)
State Laboratories Division Administrator

Inorganic Chemistry and Physical Properties of Drinking Water

Alkalinity as CaCO ₃	SM 2320B
Conductivity	SM 2510B
Bromide	EPA 300.0
Chloride	EPA 300.0
Fluoride	EPA 300.0
Nitrate	EPA 300.0, 353.2
Nitrite	EPA 300.0, 353.2
Orthophosphate	EPA 300.0
Sulfate	EPA 300.0

Organic Chemistry of Drinking Water

1,2-Dibromoethane (EDB)	EPA 504.1
1,2-Dibromo-3-chloropropane (DBCP)	EPA 504.1
Regulated Volatile Organic Compounds	EPA 524.2
Vinyl Chloride	EPA 524.2
Bromodichloromethane	EPA 524.2
Bromoform	EPA 524.2
Chloroform	EPA 524.2
Dibromochloromethane	EPA 524.2
